Meeting summary

For each team meeting provide the date, time, and location of the meeting. Indicate which members attended the meeting and action items discussed in the meeting.

This meeting was on Friday February 10th at 4pm outside of the COSI labs. All members attended. During the meeting we talked about the different requirements, use cases and mockups we were going to add to the presentation. We decided that the next meeting will be after we present and will split up our team and make sure we all know how to use either vue.js for frontend or Laravel for backend.
